An Interpretative Phenomenological Analysis of Interview Data: People on the Renal Waiting List Consider Deceased Versus Living Donors

About This Dataset

Data Source Citation

Spiers, J., & Smith, J. A. Waiting for a kidney from a deceased donor: An interpretative phenomenological analysis. *Manuscript in press*.

Full title of originating dataset

Waiting for a Kidney from a Deceased Donor

Data author(s) and affiliations

Dr Johanna Spiers, University of Bristol and Professor Jonathan A Smith, Birbeck University

First publication date

2015

Funding sources/suppliers

Unfunded

Sample/sampling procedures

Participants were approached via two online support groups for people with kidney failure. Those who had been on the waiting list for a kidney for at least four months were invited to contact Dr Spiers for an information sheet if they were interested.

Data collection dates

Data were collected between October 2011 and June 2012

Time frame of analysis

Analysis took place in 2013–2014

Unit of analysis

People on the waiting list for a kidney from a deceased donor

Location covered by data

Various locations across the UK

Abbreviations, conventions or notation devices

IPA = Interpretative Phenomenological Analysis
