Learn About Rescaling and Transforming Variables in Survey Data in R With Data From the General Social Survey (2004–2016)
Learn About Rescaling and Transforming Variables in Survey Data in R With Data From the General Social Survey (2004–2016)

About This Dataset

Data source citation

Full title of originating dataset

General Social Survey 2016

Data author(s) and affiliations

The National Data Program for the Social Sciences, National Opinion Research Center (NORC) at the University of Chicago

Dataset source website address

http://www3.norc.org/GSS+Website/

First publication date

2017
Data Universe

Individual persons 18 or older, living in non-institutional arrangements within the United States

Funding sources/suppliers

National Science Foundation

Sample/sampling procedures

Full probability sampling

Weighting

Original dataset includes weight variable, WTSSALL

Data collection dates

2004–2016

Time frame of analysis

2016

Unit of analysis

Individual

Location covered by data

United States

Links to SRM content

List of variables

MNTLHLTH

Days of poor mental health past 30 days

EMAILHR

Email hours per week

WORDSUM

Number words correct in vocabulary test

PAEDUC

Highest school year completed, father

AGE

Age of respondent

FEMALE

Respondents sex

ID_

Respondent id number
