SAGE researchmethods

Increasing discoverability

Make sure that your users can easily locate the material they need by following these simple steps.

Adding SAGE Research Methods to your catalogue and library websites

Have you …

☐ Listed SAGE Research Methods in your A-Z directory of databases?

> We recommend listing it under **R** for Research, and **M** for methods

☐ Appointed a "super user" to train others to use the tools?

➔ Training materials: http://methods.sagepub.com/Help

➔ Significant increase in usage and discoverability for those libraries that tried it!

> Features include methods lists and a methods map built on a custom taxonomy of methods

☐ Downloaded the latest MARC records for your catalogue?

➔ Click on the MARC records listing for the products you have licensed: http://methods.sagepub.com/Librarian

> A new file will be available every quarter

> Nearly 900 books, articles, encyclopaedias and videos

☐ Added logos and widgets to your catalogue and websites?

➔ Perfect for courseware and learning management systems like Blackboard

Select and download the right one for your site: http://methods.sagepub.com/Librarian

☐ Added the SAGE Research Methods LibGuide to your library's collection?

➔ http://sagepub.libguides.com/researchmethods

☐ Used the recommended production description?

➔ *SAGE Research Methods supports beginning and advanced researchers in every step of a research project, from writing a research question, choosing a method, gathering and analyzing data, to writing up and publishing the findings. With information on the full range of qualitative, quantitative, and mixed methods for the social and behavioral sciences, as well as many methods commonly used in the hard sciences, the book, reference, and journal content in SAGE Research Methods—from SAGE's renowned methods publishing program—and advanced features help researchers of all levels conduct their research.*
