Data Universe

Adults 18 and older

Funding sources/suppliers

- National Institutes of Health (R01-HD30880, DK056350, and R01-HD38700)
- National Institute of Nutrition and Food Safety (INFS)
- Chinese Center for Disease Control and Prevention (CCDC)
- Ford Foundation
- National Science Foundation (INT-9215399)

“This research uses data from China Health and Nutrition Survey (CHNS). We thank the National Institute of Nutrition and Food Safety, China Center for Disease Control and Prevention, Carolina Population Center, the University of North Carolina at Chapel Hill, the NIH (R01-HD30880, DK056350, and R01-HD38700) and the Fogarty International Center, NIH for financial support for the CHNS data collection and analysis files from 1989 to 2006 and both parties plus the China-Japan Friendship Hospital, Ministry of Health for support for CHNS 2009 and future surveys.”

Sample/sampling procedures

Data collection took place over a 3-day period using a multistage, random cluster process to draw a sample of approximately 4,400 households with a total of 26,000 individuals in nine provinces that vary in geography, economic development, public resources, and health indicators.

Data collection dates

2006

Time frame of analysis

2006

Unit of analysis

Individual

Location covered by data

China

Provinces: Guangxi, Guizhou, Heilongjiang, Henan, Hubei, Hunan, Jiangsu, Liaoning, Shandong
