Learn to Use the One-Sample Z-Test in SPSS With Data From the National Child Measurement Programme (2016–17)

About This Dataset

Data source citation

Full title of originating dataset

The National Child Measurement Programme

Data author(s) and affiliations

Public Health England

Dataset source website address

First publication date

2017
Data Universe

England

Funding sources/suppliers

Public Health England

Sample/sampling procedures

Purposive/non-probability

Time frame of analysis

Autumn 2016

Unit of analysis

Reception year children in state schools, Autumn 2016

Location covered by data

England

Links to SRM content

List of variables

WeightAll
Weight – All Reception Year children in kg

**MostDep**

Weight of Most Deprived Reception Year children (1 IMD), in kg

**LeastDep**

Weight of Least Deprived Reception Year children (10 IMD), in kg
